

Planting Seeds

Gather Supplies:

- Flower Seeds
- Flower pot or paper cup
- Potting soil

Wonder:

- Open the packet and look closely at a seed. Imagine—with good soil and water and sunlight—what flower will grow and bloom from this tiny, mysterious bundle?
- What gift might lie dormant in you this season, growing in secret, waiting to bloom?
How does God invite you to tend to that gift?

Plant:

Follow the packet instructions to plant and care for your seeds. If possible, incorporate the seedling into a prayer space.

Nurture:

Each time you check or water your seeds, offer this prayer:

*God, grow my gifts for loving service to
You, my neighbor, and all of creation.*

Enjoy:

As you watch your flowers sprout and grow, may they bring beauty to your life and home; and may they remind you of the perfect loving care that God-our-Gardener has for you!
